Thankyou so much!!

Hello! You guys are probably wondering why there was a new chapter uploaded.

I am not the new translator but ive been wanting to be apart of this project for years. I knew i wouldnt be able to dedicate myself to it so instead I decided to take up the challenge and do one single chapter which I decided to be the 100th. This will not be a regular thing but thankyou all for reading my translation and thankyou to the new translator for picking up this story♡
