

Faculty **Student council**

**The student council stands up for
your rights at the Faculty of Science!**

To do this, we sit down with the faculty board and give them (un)solicited advice on important policy issues. In order to represent our fellow students well we need your input! Therefore, please visit us in our council office B0.112, to the right of the entrance of the main hall. Of course you can also send an email to fnwi@studentenraad.nl with your input. "But what exactly can you contact the council for?" I hear you asking. The answer to this question is very simple: almost everything. Whether you have input for the TER, the diversity policy, the computers at the faculty or something completely different: please drop by! The council is not only about input however: take a look at the back of this flyer.

Besides all of our formal work, the council organises various get-togethers and activities throughout the year where we look forward to meeting you. We will keep you informed about these things through our social media which you can find at the bottom of this flyer. We also post important updates about the faculty there. Do you also want to get involved with the faculty after reading this? Then you are in luck! The student council still needs a few students to fill up its ranks. Do you want to stand up for the interests of your fellow students during a fun and educational year full of team building? Drop by the council office or send us a message on our email or social media!
