According to scientists,  
DigiRef is

# 100%

useless and autistic.

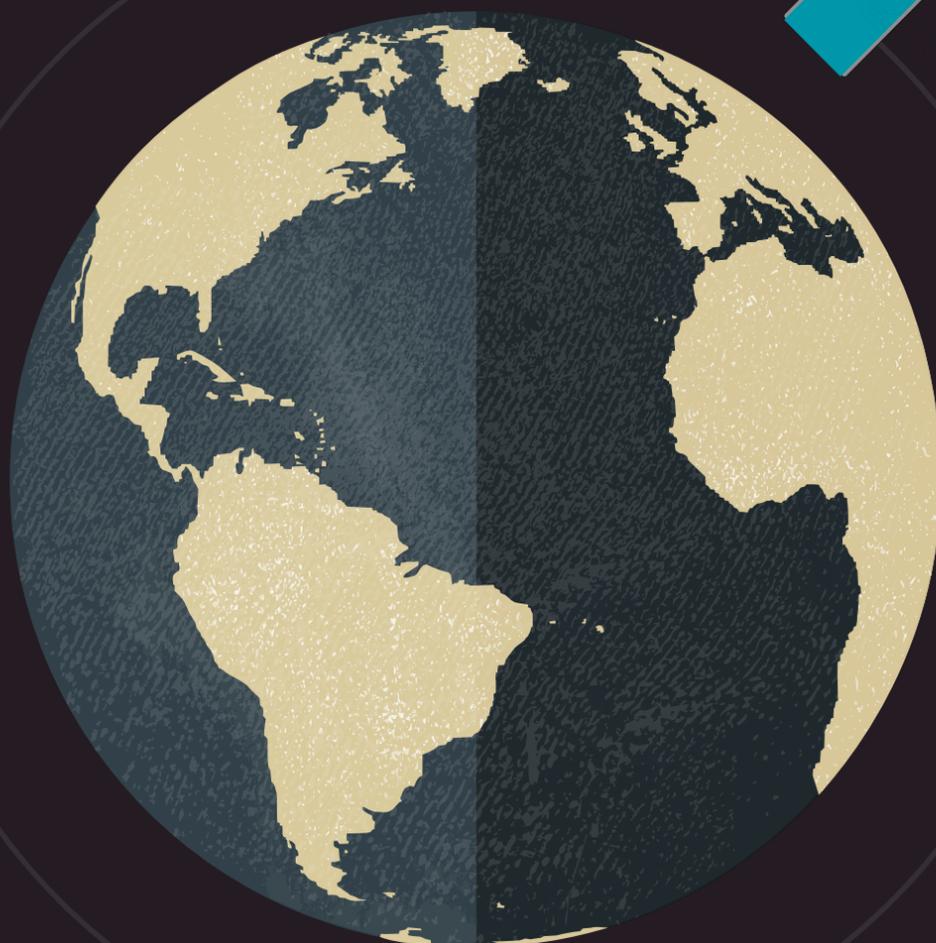

## ANDRE NUSSELBOOM

Density: 5,972,190,000,000 billion kg

Brian cells: ~2

Redeeming qualities: None

Achievements: Nobel pri... Who are we kidding, none obviously

Every minute, 8.20 brain cells are lost in DigiRef classes

In order to mess up a powerpoint presentation, you have to be very dumb

Don't fucking dare to leave 5 minutes early.

Buzzfeed is a good source

If you wanted to know on what to learn or expect on the exam, **Too fucking bad.**
